PREFIT BODYSCAN AN IDEAL CO-TRAINER FOR ATHLETES.

Monitors fitness levels, scans muscle systems and recommends individualized training plans.

Class 2A and CE marked
medically approved
therapeutic device
(FDA registered, approved
for market use in 20+ countries)

Predict sport/training injuries before they happen

Automatic measurement and evaluation of the spine and joints

Suitable for **fitness training** and **physiotherapy**

Offers **fitness and dietary** recommendations

Painless and **non-intrusive**

Easy-to-use, quick and individualized.

How Prefit Bodyscan Will Help Your Patients

Holistic and automatic scanning of central functions of the body!

The Prefit Bodyscan device determines ideal training time, performance fitness, and dietary tips suited to an individual's needs. The device can also help measure whether the trainee has a tendency for an acid/base imbalance to avoid barriers to fitness.

Body composition analyser (BCA)

The Prefit Bodyscan uses Body Composition Analysis to provide accurate measurements of body fat percentage compared to muscle tissue, enabling you to come up with precise plans for the patients aiming for muscle gain and weight loss in targeted areas.

Optimum training time

Inspired by traditional chinese medicine, the device can help differentiate between rest and active phases of the body. This further helps in determining the optimum period of time for training after scanning the trainee's activity status.

Body mass index (BMI)

In order to provide individualized tips based on metrics like weight and height, the device calculates the BMI of a trainee and modifies the training plan and recommendations as per personalized needs.

Provides customized constitutional muscle analysis

By identifying strained muscles, overworked joints, weak spots in the spinal column, muscle stiffness, and others, the Prefit Bodyscan displays the analysis graphically, while recommending a suitable training program to overcome the same.

Individualized fitness and dietary tips

For fitness efforts to come through and make a difference in a trainee or athlete's lifestyle, having the right kind of diet plays a crucial role. The device, based on whole-body function measurement, determines what the body needs and doesn't, in the form of dietary recommendation.

Pulse rate check

An optimum training pulse frequency is crucial in burning body fat, maximizing endurance, and more. Prefit Bodyscan does just that by individually determining the optimum pulse for effective burn rates.

How Prefit Bodyscan Can Elevate Your Business

Arrive at an optimum individualized training plan in **10 minutes!**

With one swift measurement, this device scans and records crucial parameters of an individual, thus saving time and determining a fitness regimen promptly.

Quick, easy to operate, the Prefit Bodyscan also requires very little space in terms of product placement in a fitness studio and empowers safe and healthy training.

A product made by medical experts for fitness experts, the Prefit Bodyscan method of training care and supervision was developed and tested in collaboration with professional sports teams such as AC Milan, sports physicians, and physiotherapists thus significantly increasing product credibility and building reliability for your venture.

"In my daily work with top athletes, I rely on the meaningful results of the Prefit Bodyscan."

Feri Bogdan
(Physiotherapist)

"The results of muscle analysis with the Prefit Bodyscan agree with our expert knowledge as physiotherapists. The data on stressed joints and spine provide valuable support in deciding which treatment to apply."

Sascha Seifert
(Physiotherapist)

Over **90%** of patients report relief from symptoms after the first session!

Most suitable for

Caters to individualized training plans for optimum results while saving time for your trainees on day-long fitness checks, lengthy dietary prescriptions, lack of awareness of problem zones in muscles, etc., to offer greater breadth and depth in your services.

Immediately recognizes muscle problems, imbalance of dietary measures, or any physical resistance in your patients to prescribe and follow-up with optimum therapy.

With knowledge of muscle composition, dietary needs, previously recorded problem areas, and more, you can offer your athletes the best possible window to optimum training. Ascertains the body's ability while training to quickly access available energy reserves by knowing the trainee's dynamics inside-out.

WE ARE WITH YOU EVERY STEP OF THE WAY

Research and development

Research engineers, medics and therapists at Wegamed GmbH develop innovative diagnosis and therapy devices to support the health of your patients and remain in close touch with the end-users of the devices to add new features.

Medical hotline

Our team of experts comprising medics and therapists is available for medical questions.

Customer support, installation, and repair

Wegamed GmbH customer support is offered by the head office as well as an international network of medically qualified specialist advisers and trainers.

Wegamed Academy seminars

Access interesting, informative, and above all practical seminars that not only explain our products but also show you directly how our diagnosis and therapy devices promise success and can be used to benefit your patients. Our seminars have developed into a forum for an exciting exchange of experience where an international peer group participates regularly.

Maintenance

In order to avoid downtime in practices, we can offer you special maintenance agreements for all of your Wegamed devices for proactive and preventive maintenance.

For questions on all aspects of our products, please contact our service hotline.

REDEFINING HOLISTIC MEDICINE BEYOND CONVENTIONAL DIAGNOSIS AND TREATMENT

Wegamed is committed to delivering drug-free alternatives that enhance overall human health.

Our products

Diagnostic Devices

1. Test Expert Plus

Our star product provides detailed, non-invasive diagnostics for pathogens, allergen, system stressors, deficiencies, and other toxic substances interfering with your overall health.

2. Predit Bodyscan

A comprehensive whole body analysis, to determine fitness levels and suggest training and nutritional practices.

3. Check Medical Sport

A fully-automated device that provides a whole body analysis of all major organ systems, their regulation status, functional limitations and prediction of any emerging health issues in just one measurement.

Therapeutic Devices

1. Med Select

Powered by homeopathy and bioresonance to activate the body's self-healing ability.

2. Med Audiocolor

A device that combines audio color therapy with neurofeedback, to support recovery from a range of health conditions.

3. Med Matrix

Designed to detoxify and regenerate soft connective tissue in the body known as matrix. It combines 5 therapies in 1 device - petechial massage, suction cupping, bioresonance, electro acupuncture, and magnetic information therapy.

Wellness Devices

1. Detox Footbath

Facilitates better organ function and auto-detoxification, to help rejuvenate and rebalance the body.

2. SOE Air

A wellness device designed to bust stress and renew strength to assist with natural rejuvenation.

By having a dialogue with your body and understanding the underlying imbalances, we help alter your lifestyle and enable your complete wellness. Our core philosophy is to find the root cause, not just treat the symptoms.
